Our expertise brings your ideas to life

Creators of Industrial Solutions, the GROUPE LEDOUX use the proficiency of the companies they are composed of, to design, achieve and retrofit the machinery dedicated to your activity.

01

DESIGN, CONCEPTION AND FABRICATION OF SPECIALISED MACHINERY, AUTOMATIC AND ROBOTIC.

Experts in conception of special machines for different sectors of the industry, CYBERMÉCA puts the performance of its design offices at the service of your industrial process, on vision, R and D, mechanical engineering, robotics, hydraulics, electrics, construction, cabling, programming in our workshops, fine-tuning, installation and training on site, customer service and maintenance.

02

PRECISION MECHANICAL MACHINING

Hermès Technologies brings it, professional knowledge precision mechanical machining. Whether you need an individual part, of small or large dimension, or much more, the GROUPE LEDOUX, in conjunction with HERMÈS TECHNOLOGIES guarantee provision of the highest quality parts for your specialized machines.

03

MAINTENANCE AND RECONSTRUCTION OF MACHINE TOOLS

Serving the automotive, aeronautic, aerospace, and rail industries, S.R.M.O. actualizes the renovation, the improvements and modernisation of tools machine and other complex processes of production. The areas of expertise S.R.M.O offer include ; automation, replacement of numerical controls and automatisms, geometric settings and certification of mechanical function and state. They also guarantee programming and commissioning.

FIVE GOOD REASONS TO CHOOSE US

Partners in the most demanding sectors, we build trust upon the excellent service we offer, including :

01. Active listening and response to all of our clients' needs
02. Respecting our commitments
03. Innovative and creative solutions
04. The multiple skills and expertise of the group companies
05. Our conscientions and customer focused after sales service follow up

FINDING CUSTOMIZED GLOBAL SOLUTION

Didier Ledoux

To relay you efficiently in the development and optimization of your industrial tools, enabling higher performance and productivity wherever you are in the world.

THAT IS OUR AMBITION

"Your preferred partner in the industrial process, we identify and analyse your needs, in France and world-wide. We propose innovative and relevant solutions ensuring best-rate return on your investment."

SINCE 2000...

THE GROUPE LEDOUX,

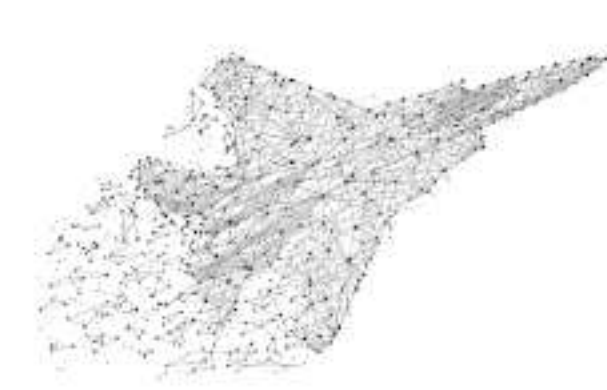

comprising of three companies; Cyberméca, SRMO, et Hermès Technologies, relies on the complementarity of these three entities and their fields of expertise: [engineering, automation, robotization, precision mechanics, retrofit and optimization of existing production systems]. Providing global and high-tech design conception and optimal industrial solutions

OUR 'KNOW-HOW' AND EXPERTISE

WE ARE SPECIALIZED IN...

Industrial machinery, tool's machines and toding reconstruction, retrofitting, automation, boilers making and many other aspects of the industrial industry. The Industrial GROUPE LEDOUX is distinguished technically by the harmonious synergy brought forth by the multi-skilled of its enterprises, allowing a certain independence still, concerning its values. Every year nearly 15% of its turnover is devoted to R & D making innovation its spearhead. Creator of Industrial Solutions, the GROUPE LEDOUX, as a number one ranked subcontractor, builds on its second-to-none customer service culture to ensure the success of your project.

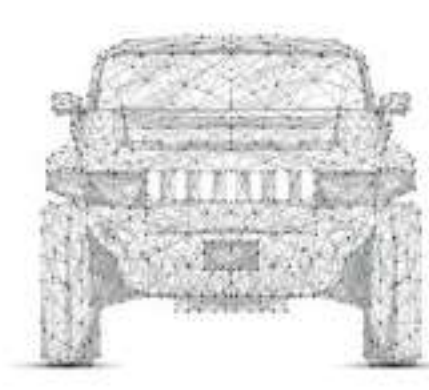

CHOSEN BY THE BIGGEST AND MOST SUCCESSFUL COMPANIES IN THE INDUSTRIAL SECTOR :

AVIATION

AEROSPACE

AUTOMOTIVE

NUCLEAR

DEFENSE

COMMITMENT AND QUALITY

OUR VALUES

Driven by shared values, The GROUPE LEDOUX and its collaborators share a common awareness of their role in optimizing your industrial processes.

01

THE QUALITY OF OUR SERVICES BASED ON TECHNICAL EXPERTISE, WITH AN INDUSTRY EXPERIENCE OF MORE THAN 30 YEARS AND THE PERSONAL INVOLVEMENT OF OUR TEAMS.

02

EFFICIENT SPECIFICATION COMPLIANCY, OPTIMIZATION OF EXISTING SYSTEMS AND THE MEETING OF DEADLINES.

03

THE CREATIVITY OF OUR CONCEPTIONS AND DESIGNS, FINDING SOLUTIONS TO YOUR NEEDS

04

FLEXIBILITY AND VERSATILITY OF THE COMPANIES, SKILLS AND EXPERTISE OF THE GROUP: R & D, AUTOMATION, ROBOTICS, ELECTRICITY, MACHINERY, BOILERS MAKING AND OTHER EXTENDED INDUSTRIAL PROCESSES.

OUR SKILLS

PRODUCTIVITY ANALYSIS, MECHANICAL STUDIES, ELECTRICAL, AUTOMATION, ROBOTICS, VISION, MICRO MECHANICS, MACHINERY RENOVATION, RETROFIT, MAINTENANCE OPERATIONS, BOILERWORK, MACHINE GEOMETRY

THEY TRUST IN US!
